Center Moriches, N.Y. 11934

Copyright 1997

The Moriches Bay Historical Society was given bound volumes of the Center Moriches Record from the library of Gus Stout. They then made these available to the Center Moriches Free Public Library for microfilming and indexing by the library. This index will become part of a statewide project headed by Stony Brook University in which local history is made available to researchers through the study of newspaper articles of the past.

Irma Davin, formerly a reporter for *The Moriches Bay Tide*, supplied the library with the first issue of *The Record*, dated October 31, 1900, which had been given to her by John Cummings. It has been transcribed and articles from that issue are included in this index.

To find information on a specific event in the *Index of the Center Moriches Record*, consult the index heading. For example: under the heading, "**Suffolk County** you will find the listing, "11/30/33 Votes cast...70,585 p. 2" – the first set of numbers indicates the month/day/and year of the issue. The title of the article in the example is, "Votes cast...70,585" which is followed by the page number, 2. Entries are listed in chronological order which allows the reader to follow the progress of news items by reading the index.

Subject headings for all the churches, synagogues, and religious meetings begin with the word "**Religion**". Unless a specific town is named in the heading, the church is located in Center Moriches.

Lodges are listed by the title of the lodge, such as **Benevolent & Protective Order of Elks, Catholic Daughters of America, International Order of Odd Fellows, Junior Order of United American Mechanics, Knights of Columbus, Modern Woodmen of America, Order of the Araranth, Order of the Eastern Star, Rebekah Lodge & Order of Free Masons.**

Clubs and societies are listed by their titles, such as, **Daughters of the American Revolution, and Woman's Club.**

An alphabetical listing of death notices appearing in *The Record* is found under the heading, **Obituary Notices.**

An asterisk following the date of issue means that there was a typographical error in the dating of the paper and so the searcher may need to consult several issues of the paper to find the specific article in question.

The newspaper served to bring all sorts of information and entertainment to the readers. Books & articles often were serialized in the weekly paper. Serializations are indicated in *The Record* with **Book Series** as a general heading. The date listed before the title of the book means that the book serialization begins in that issue, and the volume number that follows is from that first serialization.

Continuation articles have the date and volume number of the first article in the series listed, and are found under the heading **Center Moriches Record.** Some titles of continuations are, "*Economic Highlights*", "*Round About Long Island*", "*In The Good Old Days*", "*Can It Be Done*", with a drawing showing the new invention, and the column of school news, "*Sunrise Student*", which written by the students of the Center Moriches School District.

Although *The Center Moriches Record* made no specific mention of Black Friday, the date of the stock market crash and the beginning of the Great Depression in 1929, articles in the years following indicated that our area was in the midst of economic depression, and indicated how groups banded together to help. *The Record* gave free advertising for anyone looking for a job, benefit card parties were held by various groups, and a druggist gave free labor on all Rx's. *The Record* included Editorials of encouragement, and the *American Legion* was mobilized for the War against Depression.

The motto used to describe Center Moriches was: "*On the South Side of Long Island where the Sunshine Lingers Longer.*" The spelling of the of our village was debated in the issue of 11/3/32; whether it should be *Centre* or *Center*.

Some things stay the same: a cartoon in the January 1, 1927, issue says, "Ultimate in Futility to try to find a parking space on Saturday afternoon."

And some things change. Our current health regards cause all to be aware of the dangers of smoking. But not so in the 20's. In many of the 1927 issues of the paper are advertisements for cigarettes, using prominent figures, such as actors and senators. The issues of May 27th, June 3rd and June 10th in 1927 shows ads quoting Senator Charles Curtis, Leader of U.S. Senate, Senator Cameron, and actress Blanche Ring.

The advantages of piano lessons for the children used quoted Walter Damrosch in the issue of April 5th, 1928.

Johnson's Photography Studio, in Patchogue advertised in the issue of February 11th, 1927.

An article in the August 15th, 1929 issue, tells that Justice Neville issued a warrant for Bruno, charging abduction. It seems he had owed the landlady \$50 and was told to leave if he didn't get work. So he left, and the landlady's daughter left with him.

On March 18th, 1927, it was reported that Capt. W. O. Chichester returned from a 5 week trip to Florida. He went to Havana on the Steamship Seneca on the Clyde Line with Captain Byron Leek and reported that Miami business is at a standstill because of too many hotels.

The famous Bloomer Girls were to play in Center Moriches, September 1st, 1932. And on July 2nd, 1931, it was reported that the only surviving pony express rider, Charles Miller, also known as Broncho Charley, was to cross the continent on horseback.

On January 14th, 1927, it was reported that since the bay froze over, Isaac Osborn had been felling trees and cut down a 200 year old hickory tree on the Ruchart farm to make room for more farming. In the July 3rd, 1929 issue one is told where to go to see the rare night blooming cereus plant in East Moriches.

In the first issue of *The Record*, a headline reports, "*Moriches is to boom if Charles E. Blaney's plans are all carried out.*" The article tells of how Mr. Blaney has purchased a tract of 68 acres on Old Neck since the rents in the city are too expensive for his enterprises. A well-known playwright, he planed to build winter quarters for his circus on the tract at Old Neck, with an auditorium for theatrical performances. Also it is noted that the cranberries grown in Perkins Marsh in Riverhead are the size of *robin's eggs* and that pickers make excellent wages on account of the immense size of the berries - 12 cents a pail.

Reading the old newspapers gives an overview of life as it was then, and provides a useful comparison for the life of today's reader, giving an insight about life staying the same, even as it changes.
